Some society people of the West end took their small sons with them Sunday afternoon to pay a call which had been on their consciences for some time. They were met at the door with the popular if not cordial welcome, "Stay away, stay away, two

cases of whooping cough here." Thus those with small children seem destined to remain at home these days, owing to the popularity of the annoying and oftentimes dangerous epidemic.

White cloth is considered very smart for trotteurs as well as for more elaborate costumes. The sketch illustrates a model of cream broadcloth, the skirt with a double band-like yoke of the material, that matches the yoke

arrangement of the jaunty jacket. Pockets are simulated by braid embroidery, and the fur about the hem, the collar and the unique sleeves is of black lynx.

The following article by Miss Ruth Alexander Pottle, of the Erie Record, seems very appropriate at this season. Miss Pottle is a former Kansas girl; Mrs. Bill Hookins is about ready for Christmas. She began last July to sling her crochet hook with the following results: Two table runners, three buffet runners, two crochet bed-

spreads, six dresser scarfs, a baker's dozen pair of knit slippers, four yards of lace edging for Raymont's linen "toddler," six crocheted ties, four mufflers, and is now frantically rushing to finish a dozen wash rags. Her friend, Mrs. Fuburger, has on hand twenty clothespin bags and fourteen handkerchief aprons. Some rick-rack-and-crochet-guest-towel insertion, and several yards of tatting, which she may keep herself for Sarilda's God-knows-when box. She also has made two percale shirts for Philander, and when she cut up the old red wool blanket she made some neat squares and featherstitched an edge around for her husband some chest protectors. Mrs. Astorblidt has two suits of underwear laid away for Cyrus which she bought at a yellow tag sale last summer, and she is expecting in return a violin in a mahogany case. The Society Editor will perform as is her custom by having a dozen or so handkerchiefs at a sale and then tag 'em out at the last minute with a merry Christmas and Happy New Year, Peace to your nose and good will toward your pocket-book.

The Day Nursery club will hold its regular monthly meeting Thursday afternoon at the home of Mrs. W. O. Anderson, 1246 Tyler street.

cusson. Others in the line will be Mrs. Tasker, Mrs. Ralph H. Gaw and Miss Ethel Grant.

## CHILD GETS SICK CROSS, FEVERISH IF CONSTIPATED

Look at tongue! Then give fruit laxative for stomach liver, bowels.

"California Syrup of Figs" can't harm children and they love it.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."—Advertisement.
